Mayor Browning asked that \$75 be appropriated to allow the fitting up of a property for the detention of smallpox suspects and the detention of clothing. The request was granted.

The committee on laws recommended the payment of \$17.50 to each of the men in the fire department who had asked for back salary as full payment of their claim, and \$25.00 to Captain Hewitt, on their signing complete releases from further liability. The request was adopted.

Miscellaneous claims and payrolls amounting to \$2,532.92 were ordered paid.

The committee on finance reported that N. W. Harris & Co. had been notified that the city would not retain the advantage of the sewer bonds of 1892, and that the city would be gradually being freed from the debt.

The committee on streets reported recommending:

1. Allowing W. L. Watts \$30 in full payment for damage done him by cutting down the grade on Twenty-eighth street.

2. The filing of the communication of the city engineer on the subject of the ditch on Twenty-eighth street west of Wall, as the ditch was gradually being filled up. The reports were adopted.

3. That S. P. Woodmansee be permitted to redeem his property sold for taxes by the payment of the taxes and costs, and interest on the improvements be remitted, as the improvements had been erroneously assessed to him. The reports were adopted.

S. J. Gordon resigned as quarantine officer. The communication was referred to the board of health. The doctor showed that the places quarantined had been reduced during the past two weeks from 25 to 16, and stated that with proper care it would not be long before the disease would be entirely stamped out. Great vigilance was needed, however, to guard the city from infection from other parts.

The city auditor called attention to the fact that \$42,999 of insurance on public buildings would expire during January and February. After considerable discussion it was referred to the committee on finance.

The city recorder asked for instructions relative to the collection of municipal licenses during the next six months, in view of the fact that there were some 60 delinquents on the last six months. Referred to the committee on finance.

Inspector A. Peterson filed his monthly and yearly reports. The latter showed 137 head impounded during the year, and \$116.65 collected in fees. Street Supervisor J. Sanders suggested that the city should refer to the committee on streets.

G. H. Tribe and others asked that liberty avenue be improved. Referred to the committee on streets.

Richardson and Varian presented a claim of \$83.33, for legal services in the water cases up to Dec. 24, 1900, as per resolution of the council asking for the same. The bill was allowed on the certification of the city attorney as to correctness.

An Interesting Event—Franklin School Opening—New Year Nuptials. Special Correspondence.

Provo, Utah Co., Jan. 1, 1901.—The Century night watch at the Brigham Young Academy last night was well attended and passed off very successfully, in spite of some minor incidents.

Among the visitors from other towns who took part in the exercises were Apostle Lund, Dr. and Mrs. C. E. Boynton, Patriarch C. D. Evans and Mr. J. T. Thorne.

Genuine sociability prevailed and the Twentieth Century was received with a spirit of "peace on earth and good will to men."

The ladies who had charge of the event are to be congratulated on the success attending their great labor of love, a most worthy cause, and will have the satisfaction of sending a very respectable contribution to the Red Cross society—the object for which the entertainment was given.

NEW YEAR'S ADVENT.

Last evening, commencing at 10 o'clock and ending at 1 o'clock this morning, "elaborate and suitable exercises were given in the new meeting house commemorative of the past and prophetic of the future. "The Land of my Birth" was represented as follows:

Canada.....Frederick Wall  
France.....Charles Dubois  
Denmark.....Peter Peterson  
Norway.....Harmon Olsen  
Sweden.....Lars Ahlen  
Germany.....Charles Tietjen

Educational growth in Utah was briefly epitomized by School Teacher George Le Baron, followed by nineteen students of the public schools, each in turn and orderly sequence represented the most conspicuous events from the beginning of the first century of the Christian era until now. The part of the program was a notable feature. Just at midnight the entire congregation arose and under the inspiring leadership of Prof. Olsen, who, with his well-trained choir, rendered valuable assistance in singing "Praise God from whom all blessings flow." Afterwards, a series of speeches were given by Messrs. Dubois, Bergersen, Tietjen, Olsen and Hill, and eulogies by Mr. Roy Duke, Theo. Olsen and May Rees. The very pleasing program closed with the singing of America with patriotic ardor.

PROSPECTS OF THE MERWIN MINING COMPANY.

The Merwin Mining company is incorporated with 100,000 shares of the par value of one dollar each. It has a lease and option of purchase until April 15, 1901, on the Merwin, Davis, Blackbird, and Yankee mining claims, situated in Rush valley mining district, about one mile from Stockton, Utah, and a few hundred yards from the Honorable works. Of these claims all, except the Merwin are virgin ground. The first owners of the Merwin mined to a depth of about 35 feet from the surface, and extracted ore of the value of over one hundred thousand dollars. They expended the money as they made it, and when the ore body pinched out had no more with which to continue work. The next owners ran a tunnel a distance of 650 feet, and reached a point about 250 feet below the surface, and finding no ore discontinued work. The present company is making a winze from the tunnel at a point where two contacts are inclining toward each other. This winze is now down about 50 feet vertically. It is believed and predicted by mining experts that these contacts will come together at a depth of about 150 feet, and that there a large ore body will be found. The present company is also running an upraise from the tunnel toward the old ore deposit about 250 feet above. In this upraise a point about 20 feet above the tunnel level streaks of rich galena ore have been found, and about a carload of ore extracted. It is believed from the indications that these streaks will soon widen into a substantial ore body.

For the purpose of obtaining funds to continue work and pay the purchase money, the stockholders have contributed 40,000 shares of stock to be sold at not less than 25 cents per share. The proceeds of 10,000 shares to be used in development work, and of 2,000 shares to complete payment of purchase money.

In order to induce immediate subscriptions the company offers the following extraordinarily favorable terms to investors.

Each subscriber for one thousand shares will at the time of his subscription pay fifty dollars and receive a certificate full paid for two hundred shares. He will then be given a month to examine the mine and allowed five days in which to determine whether he will retain his subscription, or relinquish it and have his money returned. If he elects to retain it he will be allowed until the first of February to pay another fifty dollars and receive two hundred shares more, and will then be allowed until April 1st, 1901, when if he elects to pay one hundred and fifty dollars more he will receive the remaining 600 shares.

If a large ore body should be struck at any time, the price of all treasury stock not subscribed for will be raised without notice, or it will be withdrawn from sale.

Subscription list now open at the office of the company, room 42 Hooper Building, 22 East First South St. No stock reserved. First come first served.
